**BOSTON COLLEGE ATHLETES KELLI STACK, MOLLY SCHAUS, AND
MELISSA BIZZARI**

On her winning goal...

KS: well I got right on the ice and their defenseman tried to clear the puck and I kept it in at the blue line. I just wanted to try and score as quick as I could because I knew we were getting pretty tired. And then their was one defenseman to beat, so I just tried to get it on net and I figured if I go five-hole at least it has a chance of squeaking through. It sure enough did.

On not having to do too much on her goal after a great setup by Mary Restuccia...

MB: Mary is a really good playmaker. She always makes the people she plays with better. She gave me a nice pass and I threw it on net and luckily it went in.

On playing against another great goaltender...

MS: it is interesting because you have two great goalies, but you don't actually play against each other. She (Lacasse) is at her end and I'm at mine, so it is up to our teammates in front of us. Obviously, she is a great goaltender and she showed that today as she has all year. I just knew if they put a lot of shots on her eventually [Kelli] Stack is going to score a goal for us. You can't hold her back the whole game. You knew she would have the overtime winner.

On battling back from behind after having a lead...

Yeah like our coaches said, it came down to a twenty-minute mini game in the third period. There is a lot of emotions going. Both of us needed this win to keep our season going. We take the lead I think we have momentum. We take those two penalties and all of a sudden they get all the momentum and got the two goals. I was really proud of our team bouncing back and scoring. The third period is always crazy, you never know what you are going to get.
