NORTHEASTERN POST GAME QUOTES  
Saturday, March 5, 2011

**NORTHEASTERN GOALTENDER FLORENCE SCHELLING AND FORWARD  
ALYSSA WOHLFEILER**

*On general thoughts on the game...*

FS: it was a great game for us. We had such a good team spirit going on. We didn't have anything to lose. We didn't have any pressure so that was definitely a great thing and we totally pulled it off.

*On what it does to the team seeing their goaltender step up with big saves...*

AW: It really keeps our spirits high. We have known the whole season and since she has gotten to school that she (Schelling) is one of the top goalies in the world. When we see her play like that we know it is going to be a great game and we are going to be in it the whole game.

*On the intensity of the game picking up as the game went on...*

AW: We have some small forwards but they will really grind it out in the corners. They are not afraid to get dirty and go in there and get the pucks. I think we showed a lot of character not backing down and they have some big forwards though. I think we definitely stepped up.

*On her goal that made it 4-2 Northeastern...*

Aw: Well I picked it up and I saw there was no one around, all their forwards were pretty low, so I didn't want to rush anything. I was looking to pass, usually I look to pass first and I just saw the defenseman go down and slide and ride it to my backhand. My backhand has been working pretty well for me in practice and just tried to roof it and get it over the pad. Luckily it went in.

*On her first period in net and saving shot after shot...*

FS: for me those are the games that I love because it keeps me in the game throughout the whole period. There is literally no minute that I am just standing around thinking about something else. It is just good and I am happy I was able to keep the team in that game with a couple saves.
