NORTHEASTERN POST GAME QUOTES

NORTHEASTERN HEAD COACH DAVE FLINT

On general thoughts on the game...

I thought it was a great game. We came out a little bit on our heels and BU took it to us in that first twenty minutes. I knew they were going to come out hard. I just tried to tell the team if we can weather that storm in the beginning and keep it close, and we stay in the game, we are going to build some momentum. That is what happened. We hung around and we are a pretty dangerous team when you let us hang around.

On if it is the craziest third period he has experienced...

Pretty much. I think the last ten (minutes) was probably the longest. I looked up there and it seemed like the clock was barely moving and it gets pretty nerve racking. When it got to be about the five-minute mark I think I settled down a little bit. I calmed my nerves a little bit, because I felt like we were doing the little things right. We were putting the puck in safe spaces and making good decisions. We had good game management. We weren't running around, and weren't frantic, so that settled me down more, but that last half of that period kind of dragged out.
